Design Software | Illustrator, Photoshop, After Effects, Substance Painter, Figma, Krita, Autodesk Maya

PROJECT EXPERIENCE

Planet Plinko | Solo Developer and Designer | *Academic Project*

February 2026

- Used Unity and C# to develop a web build of a custom plinko game with Unity's built in 2D physics engine
- Utilized object-oriented programming in C# to create behaviors for a variety of game elements
- Produced and implemented all assets and UI elements, linking them to backend functionality

Portfolio Website | Solo Developer and Designer | *Personal Project*

September 2025– January 2026

- Designed, developed, and launched a professional, fully responsive portfolio, managing all aspects of front-end development and hosting
- Expertise in building modern web interfaces using HTML, CSS, and JavaScript, ensuring adherence to web standards and cross-browser compatibility
- Demonstrated skill in asset creation and optimization to provide a better user experience

Sette. | Team and Frontend Lead | *Academic Project*

December 2025

- Led a team of five people through all stages of development, from brainstorming to final presentation
- Scheduled and led team meetings, laid out clear responsibilities and goals for all members of the team, made sure that the frontend and backend were fully integrated
- Established page layout and navigation between pages using XAML and C#
- Designed the logo, name, color palette, menu, prices, and all other branding for the project

WORK EXPERIENCE

Midnight Oil

Rochester, NY

Barista

August 2025– Present

- Work quickly, efficiently, and accurately in a fast paced environment, working with coworkers to fulfill orders

Sherwin Williams

Fredericksburg, PA

Seasonal Warehouse Technician

Summer 2025

- Safely packed orders, operated an order picking forklift, lifted thousands of pounds of product every day
- Utilized warehouse management systems (AWCS) and RF scanners for tracking products and orders
